

“SEO & Marketing Package”

To build business it's critical to increase ranking on search engines so clients can find your products or services online. Imagine the sales you're losing if a keyword search doesn't find your company in top google or yahoo ranking from the many who offer the same product or service as yours?

Drive traffic to your site to increase sales through this unique **Search Engine Optimization (SEO) package that combines with SEO marketing strategies:**

Marketing Analysis: \$300.00

- website & SEO analysis
- 25 top strategies you can use yourself to get higher ranking
- Internet marketing strategies, recommendations to make your site *work* for you, enhance efficiencies to make your company more profitable

Almost 80% of websites are not properly optimized, according to recent industry estimates.

Keyword & Programming SEO: \$2000.00

- Keyword strategies using proprietary analytical programs, rather than assumptions about which keywords customers are using. Discover actual keywords people are likely to use to find you.
- SEO copywriting tune-ups to intensify correct keywords and make your website search-engine-friendly
- Competitor keyword analysis
- Link strategies, evaluations and corrections to generate increased traffic
- Programming corrections to your site so it can be 'seen' by search engines
- Correcting or adding meta description, meta tags, title tag, searchable Graphics
- Site submission to enable your site to be found on Google, Yahoo, MSN and the major search engines
- Internet marketing strategies, recommendations to make your site *work* for you, enhance efficiencies to make your company more profitable

This package of marketing and Search Engine **Optimization can cost up to \$10,000** if services are provided unbundled. But this SEO marketing team forged tools to bundle these services so worthy companies can gain the recognition and sales they deserve with one affordable package.

TOTAL PACKAGE COST (if purchased together): \$1950.00

QUALIFIED TEAM

Our web teams deliver these critical techniques to improve site ranking. While no SEO or optimization service can guarantee top ranking, this team has achieved products & services ranking #1 on Google and Yahoo! using the same proven strategies and programming in this bundled package.
